

Route Punctuality Report

Dr. Sarah Okonkwo

On-time performance

Table 1 shows the on-time rate for six routes during Q4, broken down by peak and off-peak services.

Table 1: On-time rates by route and service period

Route	Peak (%)	Off-peak (%)
Central–North	82	91
Central–East	78	88
Harbour–Airport	71	85
West Loop	88	94
Coastal Express	65	79
University Line	90	96

Off-peak services consistently outperform peak services across all routes, with the Coastal Express showing the largest gap.

Recommendations

Based on the results in Table 1:

- Investigate causes of delays on the Coastal Express and Harbour–Airport routes
- Review peak-hour scheduling on Central–East to close the gap with off-peak performance
- Use the University Line and West Loop as benchmarks for network-wide improvement
